

ZACK KASS

AI Advisory for Sustainable Growth Strategies

With **15+ years of AI expertise** and a forward-thinking approach, **Zack Kass, former Head of GTM at OpenAI**, and his advisory team help organizations reimagine strategy and operations for an AI-powered future. The focus extends beyond AI adoption, guiding businesses in planning for a world transformed by AI — identifying where to lead with technology and where to differentiate through uniquely human strengths.

Boardroom Advisory

High-level strategy sessions with board leaders to uncover AI opportunities, navigate risks, and craft a forward-looking vision that balances AI innovation with non-AI differentiation.

Executive Focus Sessions

Focused strategy sessions with executive teams to solve key AI challenges — from implementation to scaling — while ensuring the business retains and amplifies its unique strengths.

Leadership Workshops

Hands-on workshops that equip teams with the skills to integrate AI effectively, foster innovation, and build a culture that thrives on both technology and human creativity.

Ongoing Strategic Partnerships

Long-term advisory support to design and execute comprehensive strategies that align AI capabilities with your broader business goals, ensuring sustained impact and a competitive edge.

Let's talk AI

Explore how AI can guide your organization's future.
